

Sintan[®]

Eco-Friendly Degreaser

Professionally removes petroleum products and greasy contaminations from all surfaces: concrete, paving brick, natural stone, asphalt, floor lining, plastics, metal, glass and wood.

The composition of Sintan[®] ensures safety for the user, for the environment and surfaces to be cleaned.

Competitive advantages

- ready to use product – always at hand,
- pH~ 7,
- the mixture of Sintan[®] and petroleum products biodegrades fully in less than 28 days (that is why it is allowed to be called biodegradable, Regulation (EC) No 648/2004 of the European Parliament and of the Council of 31 March 2004 on detergents),
- it does not contain any organic solvents and any other toxic and dangerous substances,
- Sintan[®] thoroughly penetrates the bed and also removes the contamination from deeper layers of porous surfaces,
- it is non-flammable, and does not form any stable emulsions with oils and petroleum products,
- has unlimited shelf-life,
- can be used in a food sector.
