

Ceramic Effect Polish

Premium Foam Polish

page 1 of 1

Good foaming polish for machine vehicle care with extremely good water repellency and ideal drying preparation. The extensive foam pattern and the very spontaneous break-up of the water film when using the paint massage (Swingtex, brushes) make washing with Ceramic Effect Polish a unique experience. The premium care components give the paintwork a water-repellent preservative film, excellent paint smoothness and an attractive droplet appearance. In addition, Ceramic Effect Polish offers good dirt protection, both for the vehicle and for the washing materials. With the unique Ceramic Effect Polish, an incomparable performance can be achieved with just 5-10 ml of product. Premium protection that unfolds anew with every wash. Also suitable for biological process water treatment systems. VDA-compliant class A.

Areas of use

Automated car washes (car washes, gantry car washes, etc.)

Recommendations for use

Apply using a dosing pump. Recommended consumption per car: 5-10ml.
